What is litter? Litter is solid waste that's out of place. It's the kind of trash found on highways, lakefronts, parks and school grounds. Litter takes many forms: paper, plastics, metal cans, cigarette butts, glass, food packaging, tires and graffiti.

Where does it come from? There are seven sources of litter: pedestrians, motorists, overflowing household garbage, construction sites and uncovered trucks. Litter is often blown by the wind until it is trapped somewhere, as along a fence.

Why do people litter? People tend to litter when they think someone else will clean up, when an area is already littered, and when they do not feel a sense of ownership or community pride.

Why is litter a problem? Even small amounts of litter are unsightly, unhealthy and dangerous. Litter causes blighted landscapes resulting in an increase in taxes and a decrease in tourism and industry; loss of civic pride and morale; and a negative public image. Litter can also cause disease in people and animals, fires and accidents, especially on roadways.

If you are willing to help us tackle litter by volunteering as a Litter Marshal, please complete the short sign-up sheet below and return it by mail, electronically, or in person to the Office of the Clean Communities Coordinator, in City Hall located at 324 Farnsworth Avenue, Bordentown, NJ 08505.
